EUROPEAN DIE CASTING FORUM

Temperature Control, Robustness & Lifetime

Save the date!

March 2–3, 2027
in Prague, Czech Republic

MAGMA academy

voestalpine
ONE STEP AHEAD.

Agenda preview:

» OEE as a key performance indicator for mold temperature control
» Micro-spraying
» Additive manufacturing
» Mold properties
» AI and process control (Foundry 4.0)
» Virtual design of mold temperature control (Digital Twin)
» Casting quality (practical example)
» Impact of technology on cost-effectiveness
» LAM manufacturing process

Focus:

Foundries, toolmaking, additive manufacturing and the supply industry

Target audience:

Die-casting, toolmaking, management and process engineering

Investment (including evening event)**:**

Early-bird ticket: €550 (until end of November 2026)

Standard price: €650 (from December 2026 onwards)

All prices shown net.
