

CASTING, PROCESS AND ECONOMICAL OPTIMIZATION THROUGH EFFICIENT DIE TEMPERATURE CONTROL

Save
the
date!

November 14-15, 2024
Vienna, Austria

MAGMA
academy

voestalpine
ONE STEP AHEAD.

TOPICS

- » OEE as key performance indicator for efficient cooling systems
- » Microspraying
- » Additive Manufacturing
- » Tool properties
- » Process control (Digital Shadow, Foundry 4.0)
- » Virtual design of the mold temperature control (Digital Twin)
- » Casting quality (example from practice)
- » Economic aspects
- » Laser Additive Manufacturing

Experts

Foundry, toolmaking, additive manufacturing and supplier industry

Participants

Die casters, toolmakers, management and production engineers

Date

November 14 – 15, 2024

Your investment

550,- € (plus 19 % MwSt.)
